

UNITED STATES PATENT AND TRADEMARK OFFICE - OFFICE ACTION

NON-FINAL REJECTION

Application No.: 15/123,456

Claims 1-3 are rejected under 35 U.S.C. 103 as being unpatentable over Smith (US 5,111,222) in view of Jones (US 6,222,333).

Smith discloses a water bottle comprising a body and a cap. Jones discloses a separate container with a hinged lid. It may be possible to combine the hinge of Jones with the cap of Smith. The resulting combination appears to render claim 1 obvious. Applicant's magnetic locking mechanism recited in claim 1 is not explicitly discussed by either reference, but the examiner believes it would have been an obvious design choice.
